SUMMARY

Passionate Full-Stack Web Developer with current education, training, and experience in full-stack web development, equipped to deliver responsive and cross-compatibility web apps through enthusiastic, positive, "can-do" attitude and trainability. Believes in life-long education and is a quick learner and a strong problem solver. Highly-organized, detail-oriented, and collaborative in nature.

TECHNICAL SKILLS AND KNOWLEDGE

- HTML
- CSS
- JavaScript
- jQuery
- SQL

- MySQL
- Node.js
- Express.js
- Heroku
- Git

- Java
- Python
- PHP
- API Integration
- React Framework

- MongoDB
- MERN
- Responsive Design
- Agile Methodology
- MVC

EXPERIENCE

Web Developer   *Sep. – Dec. 2019*
Olcademy   *New Delhi, India (Remote)*

Developed web pages from scratch using CSS, HTML, JavaScript, and PHP to enhance functionality and user experience, also created responsive and efficient interfaces. Worked closely with Back-End Developers to pull information from the database. Participated in "stand-up" meetings daily. Contributed to website consistency by coding and giving feedback.

Student Web Developer   *Apr. – Oct. 2019*
University of Pennsylvania   *Philadelphia, PA*

Developed skills in HTML, CSS, JavaScript, PHP, JAVA, React, SQL, NoSQL, MVC Architecture, and Responsive Web Design. Applied these skills with several individuals and group projects such as Wedding Registry, Recipe Generator, and Wine Pairing, Dating, Online Shopping web applications.

Relative Projects:

Walk the Aisle | Github Repo | Project Website
Created an application that is designed to help users to create their wedding registry and to allow their friends/families to view the registry list and to choose a gift from the list.
Used Tools/Environments: **HTML, CSS, JavaScript, jQuery, AJAX, MySQL, Node.js, NPM Packages, Balsamiq, Heroku**

Eat-Da-Burger | Github Repo | Project Website
Created a restaurant application that users can add their burger and devour it.
Used Tools/Environments: **HTML, CSS, JavaScript, jQuery, Handlebars, Node.js, MVC, MySQL, Heroku, ORM**

Butler App | Github Repo | Project Website
Created an application that integrating data received from two server-side API requests.
Used Tools/Environments: **HTML, CSS, Bootstrap, JavaScript, jQuery, Firebase, APIs, Figma**
